---

**Evaluation**

Task	Percentage
Tests	35%
Labs	10%
Assignments/Quizzes	20%
Portfolio/Homework	5%
Final Exam	30%
Total	100%

**Expectations Regarding Regulations:**

- 1 Students that **miss** an exam will be **required** to write the exam **after** school on a **day designated by the teacher**. Menihek's "Second Chances" policy will apply to evaluation pieces, provided the student is willing to put in the extra work and time required to improve the mark they want to replace. All requests for second chances must be in a timely manner.
- 4 Students are **RESPONSIBLE** for work that is missed when they are absent, for any reason. The student is required to find out what was missed on his/her time from a classmate, do any required work and submit in a timely fashion.
- 5 All work is to be completed on an individual basis. Work that shares similarities will be considered as cheating/plagiarism and will be subject to penalty.
- 2 **Students are RESPONSIBLE** for work that is missed when they are absent, for any reason. The student is required to find out what was missed on their time from a classmate, do any required work and submit in a timely fashion. Any work passed into the teacher late will not receive full credit. Work will **not** receive credit if submitted after other student work has been marked and returned.
- 3 All work that the students complete will be stored in their own portfolio. The teacher will keep this in class. It is the students' responsibility to add completed work to the portfolio. The portfolio will be given a grade based on record keeping and its contents.
- 4 **Extensions** will be given on an **individual basis only**, and are subject to teacher discretion.
- 5 **All** work is to be completed on an individual basis. Work that shares similarities will be considered as cheating/plagiarism and all students involved will receive a grade of **ZERO**.

6. Assignments and labs are due to your science teacher **before homeroom period on the morning of the due date** regardless of whether you have science that day or not.
7. Each term expect to complete a **minimum** of 1 test, 1 lab, and 3 other pieces of evaluation.
