Evaluation

Task	Percentage
Unit tests	20%
Midterm	15%
Final exam	25 %
Assignments	20%
Classroom participation	10%
Current events case study	10 %

Expectations:

Students are responsible for work that is missed when they are absent, for any reason. Any work not completed will receive a mark of zero until the work has been completed. If you are away, it is your job to catch up. Menihek's second chances policy applies to all assigned course work...see the school website for details.

Students are expected to be in class regularly, and willing to participate in class discussions, particularly those concerning current Provincial issues. You are expected to demonstrate how politics, ecology, social issues, and economic issues intertwine to form the basis of our topics.

Most work completed will be done during class time. Students are expected to use time wisely and work efficiently to get assigned tasks done. Students are expected to show up with all necessary materials and a cooperative attitude.
