

Science 2200
Outline and Evaluation
2009-2010
Mr. Ed Neary

	Unit	Approximate Cycles Required
1	Ecosystems	11
2	Weather Dynamics	11

Evaluation

Task	Percentage
Activities	25%
Assignments	25%
Portfolio	30%
Participation and Attendance	20%
Total	100%

- 1 **Students are RESPONSIBLE** for work that is missed when they are absent, for any reason. The student is required to find out what was missed on their time from a classmate, do any required work and submit in a timely fashion.
- 2 All work that the student completes will be stored in their own portfolio. The teacher will keep this in class. It is the students' responsibility to add completed work to the portfolio. The portfolio will be given a grade based on record keeping and its contents.
- 3 Most work completed will be done during class time. Students are expected to use time wisely and work efficiently to get assigned tasks done.
- 4 Appropriate behaviour is important to the academic achievement of individual students and those around them. Behaviour will be graded. Attendance is also important and will be graded. A pattern of absenteeism will result in loss of grade unless notes are provided.
