

Complete the Image Drawing Project

This activity will help strengthen your observational skills. It will take several days to complete so take your time and do a great job!

1. Find an image in a magazine or on the internet. Of course this must be appropriate for school (no reference to drugs, alcohol, violence or sex). It can be an image of an object, person, animal or lettering.
2. Cut the image into half. Glue one piece on a sheet of paper provided by the teacher. Using the other half for reference, complete the drawing on the paper.
3. Pay close attention to shading, textures, and patterns. You will use pencils or coloured pencil for this activity depending on the colour of your image.
