

**Physics 3204**  
**2011-2012**  
**Ms. Paula Kelly**

<b>Unit</b>	<b>Value of Year</b>	<b>Suggested Date for Completion</b>
1 Force, Motion, Energy	(40%)	December 16
2 Fields	(40%)	April 30
3 Quantum Physics	(20%)	June 1

**Evaluation**

Test	28
Assignments/Quizzes/Laboratories	7
Midterm	15
Public Exam	50

**Expectations regarding Regulations:**

1. **ALL** assignments and lab reports are due before **8:10 am (before homeroom period)**, whether there is a class that day or not. If you are absent in the a.m. session, the p.m. session will be treated as the a.m. session. Please note, if you are late for school, the onus is on you to deliver the item in question immediately to me. Lateness for school is not an excuse.
2. **LATE** assignments and lab reports will not receive full credit. An alternative assessment may be required for full credit.
3. Students that **miss** an exam will be **required** to write the exam **after** school on a **day designated by me**. A **missed test form** must be completed by your parent/guardian stating why the exam was missed. This form must be returned to me the next class.
4. **Students are RESPONSIBLE** for work that you miss when you are absent, **for any reason**.
5. Students will be given an opportunity to improve their grade. If a zero (0) has been entered as a result of not completing or submitting work, or if a student wishes to improve any particular mark, they may consult with me as to how to proceed. Details of how a student can improve their mark in science can be found on Menihek's High school web page. (<http://www.menihek.ca/>)
