

Science 2200
Course Outline 2011-2012
Mrs. Ruth Simmons

Unit	Title	Suggested Completion Date
1 Life Science -	Sustainability of Ecosystems	February 10
2 Earth Science –	Weather	June 8

Evaluation Task	Percentage
Tests	20
Labs/Activities	15
Assignments/Portfolio	40
Homework/Quizzes	25

Expectations:

1. Students that **miss** a test will be **required** to write the test **after** school on a **day designated by the teacher**.
2. **Students are RESPONSIBLE** for work that is missed when they are absent, for any reason. The student is required to find out what was missed on their time from a classmate, do any required work and submit in a timely fashion.
3. Work that the students complete will be stored in their own portfolio. The teacher will keep this in class. It is the student's responsibility to add completed work to the portfolio. The portfolio will be given a grade based on its contents.
4. **All** work is to be completed on an individual basis. Work that shares similarities will be considered as cheating/plagiarism.
5. Menihek's "Second Chances" policy will apply to major evaluation pieces, provided the student is willing to put in the extra work and time required to improve the mark they want to replace. Requests for a second chance must be done in a timely manner.
