

Science 1206
Course Outline 2009-2010
Mr. Burt Gillis
Mr. Ed Neary
Mrs. Ruth Simmons

Unit	Title	Suggested Completion Date
1	Life Science - Sustainability of Ecosystems	September 9 – October 30
2	Physical Science - Chemical Reactions	November 2 – February 5
3	Physical Science - Motion	February 8 - April 23
4	Earth and Space Science – Weather	April 26- June 11

Evaluation

Task	Percentage
Tests	25
Labs/Activities	5
Assignments/Quizzes	15
Homework/Portfolio	5
Midyear Exam	25
Final Exam	25

Expectations:

1. Students that **miss** a test will be **required** to write the test **after** school on a **day designated by the teacher**.
2. **Students are RESPONSIBLE** for work that is missed when they are absent, for any reason. The student is required to find out what was missed on their time from a classmate, do any required work and submit in a timely fashion.
3. Work that the students complete will be stored in their own portfolio. The teacher will keep this in class. It is the student's responsibility to add completed work to the portfolio. The portfolio will be given a grade based on record keeping and its contents.
4. **All** work is to be completed on an individual basis. Work that shares similarities will be considered as cheating/plagiarism and will be subject to penalty
5. All sections of Science 1206 will be given the same numbers and types of evaluations each term.
6. Menihek's "Second Chances" policy will apply to evaluation pieces, provided the student is willing to put in the extra work and time required to improve the mark they want to replace. Requests for a second chance must be done in a timely manner.
